Organic & Biomolecular Chemistry (OBC) publishes original and high impact research and reviews in organic chemistry.. We welcome research that shows new or significantly improved protocols or methodologies in total synthesis, synthetic methodology or physical and theoretical organic chemistry as well as research that shows a significant advance in the organic chemistry or molecular design ...

This is the Student Study Guide and Solutions Manual to accompany Organic Chemistry, 3e. Organic Chemistry, 3rd Edition is not merely a compilation of principles, but rather, it is a disciplined method of thought and analysis. Success in organic chemistry requires mastery in two core aspects: fundamental concepts and the skills needed to apply those concepts and solve problems.

Advanced Placement Chemistry (AP Chemistry or AP Chem) is a course and examination offered by the College Board as a part of the Advanced Placement Program to give American and Canadian high school students the opportunity to demonstrate their abilities and earn college-level credit. AP Chemistry has the distinction of having the lowest known test participation rate, with 49.5% of AP Chemistry ...

### **AP Chemistry - Wikipedia**

Nuclear chemistry is the subfield of chemistry dealing with radioactivity, nuclear processes, such as nuclear transmutation, and nuclear properties.. It is the chemistry of radioactive elements such as the actinides, radium and radon together with the chemistry associated with equipment (such as nuclear reactors) which are designed to perform nuclear processes.

The art of building small. The research program of the Feringa group is focussed on synthetic and physical organic chemistry. Inspired by Nature's principles of molecular assembly, recognition, transport, motion and catalysis, the goal is to exploit the full potential of synthetic chemistry to create new structures and functions.

Strontium in Marine Aquaria. In a study of 23 marine aquaria, Shimek37 showed that the strontium levels ranged from 4 to 10 ppm, with a mean of 6.8 ppm. Some of these aquarists were likely adding strontium supplements, and some not. My own aquarium, where I have not added any strontium supplements in several years, has a strontium level of 15 ppm (measured by ICP, a technique describe later in ...

Iodo substituents ease passage: The introduction of iodine atoms into a series of fluorescent molecules remarkably enhances their uptake by mammalian cells (see graphic). The iodine atom can also facilitate the transport of organic compounds through the nuclear membrane, indicating that the introduction of heavier halogen atoms can be used as a general strategy to increase the cellular uptake ...
