There are two common definitions of coastal erosion. First, coastal erosion is often defined as the loss or displacement of land along the coastline due to the action of waves, currents, tides, wind-driven water, waterborne ice, or other impacts of storms. This landward retreat of the shoreline is measured to a given datum over a temporal scale of tides, seasons, and other short-term cyclic ...

Hydrology (from Greek: ὕδωρ, "h<sub>2</sub>O" meaning "water"; and ἔργον, "I<sup>3</sup>gos" meaning "study") is the scientific study of the movement, distribution, and quality of water on Earth and other planets, including the water cycle, water resources and environmental watershed sustainability. A practitioner of hydrology is a hydrologist, working within the fields of earth or environmental ...
