Some home cinema enthusiasts build a dedicated room in their home for the theater. These more advanced installations often include sophisticated acoustic design elements, including "room-in-a-room" construction that isolates sound and provides an improved listening environment and a large screen, often using a high definition projector.

A house is a building that functions as a home for humans ranging from simple dwellings such as rudimentary huts of nomadic tribes to complex, fixed structures of wood, brick, or other materials containing plumbing, ventilation and electrical systems. Most conventional modern houses will at least contain a bedroom, bathroom, kitchen or cooking area, and a living room.
