The life sciences or biological sciences comprise the branches of science that involve the scientific study of life and organisms – such as microorganisms, plants, and animals including human beings.. Life science is one of the two major branches of natural science, the other being physical science, which is concerned with non-living matter.. By definition, biology is the natural science ...

Maggot therapy improves healing in chronic ulcers. In diabetic foot ulcers there is tentative evidence of benefit. A Cochrane review of methods for the debridement of venous leg ulcers found maggot therapy to be broadly as effective as most other methods, but also noted that the quality of data was poor.. In 2004, the FDA cleared maggots for use as a medical device in the United States for the ...
