Army Training Class Sign In Roster Form

If the intent is to import from an electronically submitted form, I have used Adobe LifeCycle Designer to accomplish this very thing. Basically you can create an XML output of the PDF form data using an email client of the end users choice and have the data from the XML file read from the inbox into the fields of your MS Access database.

Excellent article and thank you for the effort. One small remark though. As far as I know, you get one W3WP.exe process per application pool. If the pool is shared between multiple websites or web applications then you get one process.

Publishing and Running ASP.NET Core Applications with IIS

Hi, Please consider me as your new fan. I am starting a new J2EE financial project which will also have lots of menus, graphs, charts. I was thinking using JSF2 with PrimeFaces, do you think that is a good approach or is any other MVC a preferred framework of choice (Spring MVC or something else).
