This is an excellent addition! To the first point regarding the different engines- you need to get a screen shot of an aircraft with an apu running in flight- sometimes the apu creates a contrail when the engines aren't and vice-versa.

Why do some planes leave long trails, but others don't

The long term trend is not statistically different from zero. June 2018 is not yet available at the NOAA website, but from what I've seen for the global June Climate Forecast System map at WeatherBell.com, it looks like it was near the long-term (20th Century) average.. The memo also made mention of the widespread record warmth the U.S. experienced in May, 2018.
