The Self-Sufficient Gardener - Free eBooks Download

I actually have "The New Self-Sufficient Gardener." I checked it out from the library first, but then made the leap and bought it because I liked it so much. He gives a lot of tips for cooler climates, which I appreciated. One of my favorite parts of this book is the section where it talks about the garden during the different seasons.

SEEDS ¼ Most plants begin as seeds. Every plant, flower and tree you see, every fruit and vegetable you eat, started out as a tiny seed. Seeds have food inside which feeds the plant until it is planted into soil. We eat some seeds before they become plants, such as sunflower seeds, poppy seeds, peas, and chickpeas.
