The tertiary sector or service sector is the third of the three economic sectors of the three-sector theory. The others are the secondary sector (approximately the same as manufacturing), and the primary sector (raw materials).. The service sector consists of the production of services instead of end products. Services (also known as "intangible goods") include attention, advice, access ...

Diversification is a corporate strategy to enter into a new market or industry in which the business doesn't currently operate, while also creating a new product for that new market. This is the most risky section of the Ansoff Matrix, as the business has no experience in the new market and does not know if the product is going to be successful. ...
