Collectively, First Nations, Inuit, and Mtis peoples constitute Indigenous peoples in Canada, Indigenous peoples of the Americas, or first peoples. First Nation as a term became officially used beginning in 1980s to replace the term Indian band in referring to groups of Indians with common government and language. The term had came into common usage in the 1970s to avoid using the word ...

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
