

viral how to spread pdf

Viral marketing or viral advertising is a business strategy that uses existing social networks to promote a product. Its name refers to how consumers spread information about a product with other people in their social networks, much in the same way that a virus spreads from one person to another. It can be delivered by word of mouth or enhanced by the network effects of the Internet and ...

Viral marketing - Wikipedia

The spread of viral phenomena are also regarded as part of the cultural politics of network culture or the virality of the age of networks. Network culture enables the audience to create and spread viral content.
